Joint High Commission.

Preparing the Treaty for the Senate.

NEW YORK, May 5, 1871.

The *Tribune's* Washington special correspondent telegraphed last night that Senators Morton and Cameron, in response to a telegraphic dispatch from the President, arrived here yesterday. They come in advance of the meeting of the Senate, in order to become familiar with the treaty of the Joint High Commission, and to examine the papers and documents which are very voluminous and intricate, relating to subjects of dissension between the English Government and our own. The treaty has been printed confidentially for the use of the Commissioners, and copies will at once be placed in the hands of all members of the Foreign Relations Committee in the city and also members of the Cabinet.

ADJOURNED.

The Commission has adjourned until Saturday, in order to give the Cabinet time to examine all the conditions embraced in the treaty, and if the Cabinet should suggest any amendment or change, the same will receive the attention of the Commission on Saturday. It will then be signed in duplicate by all the members of the Commission, on behalf of both governments, there being no dissatisfaction expressed, by any member, and all of them being fully satisfied that the treaty is just, fair and honorable to both governments. Every American member of the Commission expresses his unhesitating belief that it will be ratified, and Judge Nelson, who is the only Democratic member, is enthusiastic in his admiration for its provisions. He says that no fair minded American who examines the subject intelligently and with candor can fail to approve the treaty in all its points.

SENATOR SUMNER.

The report that Senator Sumner is writing a speech in opposition to the treaty, and that he will take occasion in it to explain his unfriendly relation with Secretary Fish, is unfounded. Mr. Sumner has not seen the treaty and he will not oppose it unless it shall appear to his mind, after an examination, that it is unwise and defective. Senator Morton will probably have charge of the treaty in the Senate.

RETURNED.

Secretary Boutwell returned yesterday, two days earlier than expected, in order that he might participate in the examination of the treaty, which is to occupy the whole time of the Cabinet to-day.

WHAT WILL BE PROVIDED.

The Joint High Commission will probably not sign the treaty until Tuesday next. Among the few things positively known concerning it, is that it will provide only for the adjudication of claims both of the United States and Great Britain arising from 1861 till the close of the war in 1865.

CHANCES FOR A FULL SENATE.

The probability is that there will be a full Senate on Wednesday next. Among those now or recently in Washington are Senators Morrill, Morton, Cameron, Casserly, Cole, Cragin, Howe, Pomeroy, Sawyer, Stockton and Sumner. Senators Stewart and Nye, of Nevada, and Corbett and Kelly, of Oregon, are within a few hours' travel of Washington.

NIAGARA.

The Drowning Catastrophe.

NIAGARA, May 5.—The bodies of Lieutenants Ashbury and Morrison and their six comrades, Sergeant Dowle, Corporal Hobbs and Privates Halley, Sharkey, Pierce and Mooney, drowned yesterday in the attempt to save the lifeboat which had gone adrift, have been recovered. The accident was witnessed by many people, but the sea was running so high, it was impossible to launch a boat and give assistance.

A STRANGE STORY.

A morning paper publishes the following singular story: About two months ago it was rumored that the once famous yacht Maria, formerly the property of Commodore Stevens, of the New York Yacht Club, had been lost at sea, and it is now reported that the rumor was set afloat at that time to cover up the murder of the Captain and the seizure of the vessel by the crew. It is said that two seafaring men, recently arrived in this city, state that the Maria is running the Cuban blockade from a Southern port under the command of a Spanish Captain, and that rumor is current to the effect that Captain Martin had been murdered by his crew. Steps have been taken to ensure her seizure by the United States Consulate authorities in Cuba, San Domingo, New Providence and Aspinwall. The Government has, it is said, ordered the United States cruisers to look out for the Maria.

NEW YORK.

The Coal Mining Troubles—The Erie Case—Financial Matters—The Stevens House Suicide—A Queer Story—Woodhull, Claflin & Co., before a Police Magistrate—The Indian Supplies—Labor Congress.

NEW YORK, May 5, 1871.

THE MINING TROUBLES.

Late dispatches show that the miners have surrendered to the operators. Work at some of the mines is already resumed, and all in repair will be in operation next week. John Siney, President of the Workingmen's Benevolent Association, resigned yesterday because he did not wish to stand in the way of arbitration, the operators having declared that they would not treat through him. The report as to troubles between the miners and operators at Scranton yesterday proves to be unfounded.

CURIOUS CASE.

A morning paper has the following. A curious case came up yesterday afternoon before Justice Ledwith in Essex Market, Police Court. It was an application for the issuing of a warrant for the arrest of James H. Blood alias Dr. J. H. Harvey, the "Co." of the firm of Woodhull & Claflin. The application was made by Annie Claflin, mother of Mrs. Woodhull. Mrs. Claflin says in her affidavit, that Blood, otherwise known as Dr. J. H. Harvey, occupies the same bed with her daughter Victoria, and that the said Blood has been in her family for the last six years. That since his entrance into her family he has made every effort to corrupt and has corrupted not only her daughter Victoria, but through his machinations and intrigues has excited her daughter Tennessee and entirely weaned them from deponent, and deponent says that during the time she has resided in said house she has often heard said Blood insist that her daughter Tennessee should make efforts to secure the attentions of different married gentlemen in order that said Blood and said Victoria and Tennessee might combinedly make money out of such persons and deponent says that she has known such married gentlemen who have been taken in and blackmailed in said house. She had often heard Blood who is the receiver of all moneys that come into the possession of the firm of Woodhull, Claflin & Co., say, that no books or any accounts have been kept by said firm until very recently, and that in case any trouble should arise between dealers with said firm and themselves a great trouble would come upon said firm and that Broad street would be too hot for them. She further says she believes Blood is endeavoring to ruin her daughters, especially Tennessee and that he has threatened her life. She does not feel safe from Blood and prays he may be arrested and dealt with according to law. The affidavit is supported by others and signed by Mr. and Mrs. Starr, daughter and son-in-law of Mrs. Claflin. Mrs. Woodhull indignantly denies these assertions and says it is merely an attempt to levy blackmail. Her mother is old and weak-minded, and has been induced by some means to make the affidavit which is a black and infamous lie.

THE ERIE CASE.

The reference in the case of Heath & Raphael against the Erie Company was continued this afternoon. Georgienni R. Marisini, Auditor of the Erie Company, was the first witness called. He testified that he kept no book containing a special account of transactions between the Erie Company and Williard, Martin & Backe; all monies received from them were entered in his books with other accounts, and all identity was lost. Witness knew nothing of the new issue of stock until he read it in the newspapers. There was no entry in his books of such issue of stocks, and as far as he knew there was no record of such an issue in any book. He kept no account of outstanding liabilities of the company but entered them in the lump on his balance. The company formerly kept an account of convertible bonds, but it had been closed a long time. No such account was kept at the present. He had never been informed of the issue of convertible bonds and in consequence there was no entry of these in the books. Witness was further examined and it was discovered that on the 2d December, 1870, there was two thousand dollars in the hands of the Treasurer in favor of Messrs. Williard, Martin and Bache during the month of December, 1870, and January, 1871. Large sums of money were received from that firm, and they were entered on the books of the company as loans. No certificates of stock were credited on the books to Williard, Martin and Bache during the two months; no stock was credited to the Jay Gould account between the company and Williard, Martin & Bache. It was an open account. At the end of January he had on his books $935,000 in favor of Williard, Martin & Bache, all of which had been appropriated to pay the current expenses.

John A. Helton, transfer clerk, was next called and said: In the month of December, 1870, twenty-five hundred shares of stock were credited to P. J. Titus, and still stand to his credit. After the entry of these stocks were the letters W. M. B. These letters witness explained as incurring that Titus was with Williard, Martin and Bache. The whole amount of stock in December, 1870, credited to Titus was 12,000 shares. Could not tell if the 2,500 shares were credited at first and which were the part of the n w issue which formed part of the 12,000.

FINANCIAL.

The *Tribune's* financial article says: The money market has been without essential change, the supply being abundant to meet the demand at four and six per cent., though the latter may be regarded to a certain extent as exceptionable. At the close round amounts were left with bond houses as low as three per cent.

Washington despatches yesterday to the effect that the Controller of the Currency has called for a statement of the condition of the National Banks on last Saturday, seem to have been premature, as nothing has been heard of it officially by the banks here.

Prime mercantile paper moves readily at six and six and a half per cent.

The *Times'* article says the amount of gold bid for at the Treasury was $8,600,000, about one-half at 111 per cent. and over $2,000,000 sold was at 111 05@111 16 per cent. The Gold Room has scarcely varied from 111⅛ per cent. through the whole day. The sudden decline in the export demand is not yet wholly accounted for, though it is attributed in part to the arbitrary changes of the English Steamship Companies in the conditions of their bills of lading. At the same time money is quoted at 2½@2¾ per cent. premium in London, and resulting in an upward turn in the cotton trade at Liverpool and Manchester, both of which no doubt have there influence upon gold and exchange here. The rates, however, are not lower than 118¾ for bills on London, and the market is called steady.

LABOR CONVENTION.

The Labor Convention met at Cooper Institute to-night at which the principal topic of discussion was the utility of Trades' Unions. E. N. Haywood, President of the New England Labor Reform League, thought that as now constituted, Trades' Unions were injurious to the working classes. He condemned the claim of workingmen for ten hours pay for eight hours work as dishonest and denounced the government for robbing the nation to over pay its office holders.

The views of Mr. Heywood were sharpld contested by Mr. Drury, of this city, and others. Opinions were generally expressey that the trades when better organized should go into politics and make themselves felt. The convention will remain in session three days.

JIM FISK'S ACTION.

The bill of complaint in the suit of James Fisk, Jr., against the Union Pacific Railroad and the Credit Mobilier, which was originally begun in the Supreme Court was filed this morning in the clerks office of the United States Circuit Court, under a recent order of removal. This is the case in which Fisk accuses the Union Pacific Company, the Credit Mobilier and other defendants of affirming a conspiracy to forward the interest of certain stockholders.

On Saturday cloudy weather with light winds is probable for the Ohio valley, the lakes and the Eastern States.

CHINESE MISREPRESENTATION.

A Chinese tract translated into English has been received here, and it abounds in the most horrible misrepresentations of the Christian religion, and draws a fearful picture if they longer allow it to have a foothold in their country. The belief is expressed here by high officials that news may soon be expected from China which will cause some action on the part of the Administration on the question of the further continuance of diplomatic relations with that country.

In 1864 he resigned to accept the position of special agent of the Postoffice Department, and while in that position organized the Railway Postal System, now in such successful operation in all parts of the United States, and was appointed to its chief management, and devoted his attention and energies to that service up to the time of his death.

THIERS DISAPPOINTED.

VERSAILLES, May 5.—Until now Thiers has depended upon the co-operation of a party inside of Paris, who promised to rise up against the Commune the moment Thiers gave notice. A signal movement was to have been made on Tuesday night, but their courage failed at the last moment, and nothing was done. Negotiations are now progressing for an armistice to effect a compromise, and should these fail Marshal MacMahon will carry the city by assault.

In the House of Commons Viscount Enfield stated that the Government was not aware that any correspondence had passed between Paris and Berlin, in 1866, relative to the alleged demand of Napoleon for the cession of Mayence. In reply to a question regarding the progress made by the Joint High Commission at Washington, Viscount Enfield said the Convention had not yet been signed, but he was enabled to state that it had been agreed that the British claims should be heard by a special commission.

The Election.

NEW HAVEN, May 5.—The Legislative Committee to examine the vote for Governor met here to-day to inquire into the Fourth ward vote. The Town Clerk of New Haven was examined and testified as to the whereabouts of the box and since the election he was asked to produce the Fourth ward State box but could not identify it. The Moderator of the Fourth ward identified the box by a tally on the seal and other marks and swore to the correctness of the count, how it was taken and reported that the Registrar identified the box by the same signs, swore to the accuracy of the checking. The certified check list was produced in evidence, and sworn to by the town clerk. The box was then produced and the votes recounted. In the box were found six packages for Jewell, three containing 100 ballots each, two, 50 each, one, 63, and 16 scattering. Total for Jewell 479. For English, five packages, 100 each, one of 95, one of 112, and 14 scattering. Total for English 719. Jewell's vote on the recount was 100 less than the official return. The recount of representatives gives the same count as the official return. The Democrat 605; Republican 577. The Committee will meet again on Monday.

BALLOT-BOX TAMPERING.

HARTFORD, May 5.—Since the development about the ballot-box in the Fourth ward, New Haven, the Republicans here have expressed a positive belief that the box has been tampered with since election day. The box was locked with a common key and not sealed. As full an investigation as possible will be made.

MURDER.

A Singular Shooting Case--A Fine Family.

A most horrible murder was committed at Upton's Station, sixty miles from the city, on the Louisville and Nashville Railroad, last Monday night.

Mr. William White, his wife and her nephew were all in the same house, and had retired to rest. Very late in the night—perhaps about twelve o'clock—young Berringer, the nephew of Mrs. White, heard her scream and say that she was shot. He got up and went down stairs into the room where the lady was, and saw her lying on the floor and Mr. White in the bed. She was groaning and said several times that she was shot. Her husband remarked, "I wish you would hush; damn it, you are always making a fuss." As the young man saw no signs of bodily harm, he returned to his room and went to sleep. Early in the morning he heard groans again, and went down into the lady's room a second time. Mrs. W. was lying in the bed weltering in blood. She asked for water, and when it was handed to her, drank it in great quantities. Mr. White was in an adjacent room asleep upon a sofa. Several of the neighbors were called in, and conversed with the lady before she died. Nothing that she said seemed to implicate her husband.

Young Berringer does not state that he heard any pistol shot, but that he was alarmed by the screams and cries of Mrs. W. When the body was examined it was discovered that a ball had passed through the small of the back, and also through the bed clothes.

Mr. White relates that he heard a pistol fire sometime in the night, and that his wife saw the man in the yard. He does not state any of the particulars of his wife's suffering from that time until her death, but his mysterious conduct in retiring to another room, and not giving the alarm, has raised the suspicion that he is himself the author of the foul deed. Accordingly he was arrested, placed in jail at Munfordsville, and will be tried to-day on the charge of murdering his wife.

Mrs. White died Tuesday morning. Her remains were brought to Louisville yesterday and interred in the Catholic cemetery. She is said to be the mother of the young man who, a few months ago, killed young Frazer, of this city.

These facts are obtained from persons and letters which came to this city yesterday from the vicinity of the murder.

A Very Singular and Mysterious Occurrence.

The Lexington (Va.) *Gazette* publishes the following, asserting that it has received the "facts" upon undoubted evidence:

Mr. Z. J. White, whose death occurred last week, was stricken on his return from our last Court to his home in Brownsburg, with the disease that proved fatal. On the day of his return he had occasion to go into a room where was kept a clock belonging to his father, the late Robert White. This clock is of the old-fashioned high kind, and has been stopped for years, not even having the weights attached, being merely kept as a family relic. When Mr. White entered the room the clock, which had been silent so long, distinctly struck "one!" He at the time paid no special attention to it, and not being of a superstitious turn of mind, thought it was a mistake or an illusion of his fancy. The next day or the day after he again had occasion to enter the same room. Again the clock struck "one!" He immediately went out, telling his wife of the circumstances, and remarked that he felt assured he was going to die soon. His premonitions, as we have stated, proved true, and in a few days his spirit passed away.

A Lady With a Feather in her Face.

Some time since a lady residing at the South end, while performing the ordinary duties of her household, was suddenly taken with a severe pain on the right side of her face. Supposing it to be a species of neuralgia, and that it would pass off, she paid but little attention to it. The pain, however, continued to increase in violence, causing much suffering, and a few days subsequently a small swelling commenced to form on the inside of her face, gradually enlarging in size. Becoming somewhat alarmed, she deemed it necessary to send for a physician, and Dr. L. R. Sheldon was accordingly called in. Upon an examination of the case, being fearful that the swelling might break and produce a lasting disfigurement of the lady's countenance, he decided to remove the tumor by the aid of surgical instruments. The operation required considerable skill and caution, but it was successfully performed, the lady undergoing it with remarkable fortitude. The tumor was found to contain a small feather, about one inch in length, which was probably the cause of all the trouble. How it came there is a wonder.

The Isthmus of Panama.

It is reported that recently a scientific examination has been made of the coal taken from certain mines on the Indio river, about thirty-five miles from Aspinwall, on the Isthmus of Panama. The analysis represents the coal as clean, and resembling English cannel coal, being free from sulphur and iron. A trial was also made of the qualities of the coal in the furnaces of a steamship at Aspinwall, and proved satisfactory. The coal it is stated, lies in seams from nine to twelve feet thick, and the river Indio, on which the mines are situated is navigable for nine months in the year. This discovery will prove of great value to the railroad crossing the Isthmus, and to the steamers touching at Aspinwall, as coal of good quality has now to be conveyed to Panama, in sailing ships, and sells at a high price. Inferior grades can, it is true, be obtained along the coast, but the presence of sulphur and iron renders the coal undesirable as fuel for raising steam very quickly.

GREENSBURG, May 5, 1871.

EDITORS GAZETTE—*Gentlemen*: The Pittsburgh *Post* of this date, in noticing the appointment of Mr. Logan as President Judge of this District, in the room of Judge Buffington, resigned, heads it "Another Brother-in-Law Cared For."

Allow me through your columns to correct the erroneous impression that heading will make upon the community. Hon. JAMES A. LOGAN, who has just received the well deserved honor of that appointment from the Governor, is no relation by blood or marriage of the Executive; and the charge of nepotism implied, might be made with the same truthfulness had the appointment been conferred upon a Chinee—which you know is among the impossibilities. I presume the writing or local editor of the *Post* has been misinformed, and the conductors of that paper are gentlemanly enough to take the first opportunity to make the correction.

Yours, D. W. S.

A CURIOUS suit is now in progress in New York, to get the property of James Scott, who died a year ago, worth $200,000. He left all his property by will to his wife, Julia Scott, and the wife has since died, leaving the property to other parties. And now another woman has appeared on the scene, claimed that she was married to James Scott in 1831; that she lived with him till 1845, when they had a quarrel and separated, and that she had two children by him. As she was never divorced, she claims to be the true wife, and heir to the property, and she seems likely to make out her case.

Steinway Sales--Bulletin No. 16.

The following sales of the famous Steinway pianos were made since date of last bulletin.

Josiah Hartzell, Esq., Canton, a Steinway Square; Dr. Matthews, Youngstown, Ohio, a Steinway Square; S. H. Miller, Esq., Mercer, Pa., a Steinway double round; Miss Jennie Cook, a Steinway Square; Mr. Noble, a Steinway upright piano; Mrs. Dr. Dickson, Sewickley, a Steinway Square; D. C. Hultz, Esq., a Steinway Square; Mrs. Cora Brown Sellers, a Steinway Square Grand; and others.

The Steinway superiority is now universally admitted, and hence persons laying claim to musical culture or fashionable standing in society are almost ashamed to own any other than a Steinway piano. H. Kleber and Bro. are the sole agents here, and a splendid stock of the Steinway may always be found at lowest prices.

IT is a fact speedily noticed by observing travelers that the further South we go the less industrious are the inhabitants, and in the same ratio the consumption of Pier, Dannals & Co.'s cream ale decreases. Energy and cream ale march side by side.

Sealed Proposals will be received at this office until one o'clock of FRIDAY, the nineteenth day of May, 1871, from iron manufacturers only, for furnishing the materials and labor of all kinds necessary to construct a Second-order Iron Light-House for Bolivar Point, Texas, in accordance with the accompanying specifications and drawings.

The same to be delivered, at the expense of the contractor, on board of a sea-going vessel or vessels, at any Atlantic or Gulf port nearest to the manufacturer's workshops, and accessible to such vessels.

The brick-work, the glass for the lantern, the lens, the lamps, and furniture, belonging thereto, will be provided by the Light House Board, and their cost is not to be included in the amount of the bid.

The bid should state the sum for which the ENTIRE WORK, as shown on the drawing, will be completed, fully erected at the workshops, and then taken down after acceptance, and delivered as aforesaid; and should also state the day and date on which it shall be completed and delivered, under forfeit, as specified in the "Form of Bid."

The work will be carried on under the personal supervision of an agent of the Board, and all facilities must be afforded him for inspecting the material and workmanship. Such parts of either as are not in accordance with the drawings and specifications must, in case of rejection, be made good at the expense of the contractor.

The Board reserves the right to reject any proposal for any reasons it may deem sufficient.

Each bid must be accompanied by a bond, signed by the bidder and two competent sureties (certified to be such by some officer known to the Treasury Department), in the sum of ten thousand dollars ($10,000), and that, in the event of the acceptance of such bid, the necessary contract will be entered into within ten (10) days after notice is given by the Board that the bid has been accepted.

Bond and security in the sum of ten thousand dollars ($10,000), signed by two competent bondsmen, for the faithful performance of the contract will also be required.

A copy of the plans and specifications must be inclosed with the bid, as evidence as to the object of the proposal.

All proposals must be signed, sealed, and indorsed: "Proposals for a light-house at Bolivar Point, Texas," and then inclosed in another envelope and directed, prepaid, to Rear-Admiral W. B. Shubrick, Chairman of the Light House Board, Treasury Department, Washington, D. C.

Any bidder may be present and witness the opening of the bids at the time and place hereinbefore specified.

Bidders will name the ports at which they will deliver on board ship.

Payments for the work will be made quarterly, upon estimates certified to by the agent of the Board; but twenty (20) per centum of the amount of each estimate will be withheld until the satisfactory completion of the contract.

LOUISVILLE
CEMENT.
The Best--The Cheapest.

The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.

It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.

The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.

The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.

At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.

A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

D. 1871, to nominate candidates for Auditor General and Surveyor General, and to take action upon the question of Constitutional Reform, and for the transaction of such other business as may be brought before it.

THE Committee on Elections in Connecticut has made a partial examination of the election returns for Governor. The votes in the ballot box at Enfield have been examined and an error of 20 votes discovered, all of which are to be deducted from the majority of English. It is now positively asserted that the true returns will throw the Gubernatorial election into the Legislature, in which case, Jewell will be elected.

A LETTER from General Howard to Secretary Belknap gives a detailed account of the outrages committed on Freedmen in the State of Mississippi. The letter is short, but it relates a series of acts against freedmen and others, that show how utterly mistaken and erroneous is the opinion of General Sherman on this subject, and that though he may think he knows all about it, he is in reality very ignorant of the true facts in the matter.

HON. JAMES A. LOGAN, of Greensburg, who was appointed by Governor Geary, on Thursday, Judge of the Tenth Judicial District *vice* Judge Buffington, resigned, is not a relative of Governor Geary as some of our cotemporaries state. Judge Logan's father resides in this city. The appointment was made at the request of the members of the profession living in the district, without regard to politics. From what we learn of the gentlemen, we believe the selection to be a good one.

ON our fourth page we publish a communication from a South Sider, asking Col. Russel Errett to permit his name to be used for the Senate from that part of the county. We don't think Mr. Errett will acquiesce in the request, but we do know that the tax-payers of Allegheny county never had a Senator that cared for their interest as satisfactorily as he did, the two years he was at Harrisburg. It would pay well the business men of Pittsburgh to keep him in that position, or a higher one, if he would accept it.

THE Democratic State Convention that met at Frankfort, Kentucky, on the 4th inst., passed five resolutions, that at all events have the merit of saying nothing. The fourth resolution apparently endorses the Democratic address of the members of Congress, but in reality it does no such thing. It merely endorses it so far as it relates to the suspension of the writs of *habeas corpus* by the President. With regard to the reconstruction measures, nothing is said, even as trivial and non-committal as the words in the Democratic address. We call on our citizens to watch *this* particular feature in Democratic Conventions in the Southern States. Now is the time to watch the actual words used. On the reconstruction measures will hang the next campaign, and silence in any Democratic Convention on this point is significant.

THE *Post* is seemingly very anxious that some of the Republican journals should make comment on General Sherman's nice little speech about the Ku Klux. No comment is necessary. The people of the United States are well acquainted with the gallant General, and while they give him unqualified praise for his military exploits, they are content he should confine himself to his legitimate business, and not go poking around in matters that do not concern him. He is a good military officer, but beyond that there is nothing whatever about his record calculated to make this nation fall down and worship him. The *Post* can probably call to mind the wisdom of General Sherman that prompted him to make concessions to General Johnston at the time of the surrender, that were so open and notoriously ridiculous and absurd that it was not to be wondered the conditions were most promptly repudiated. We had a taste of his executive ability at that time, and have no desire to follow his counsel or opinion in that line for the future. We do not desire to detract from his merits as a military man, but we do most emphatically state that if he desires to be considered anything higher than a very ordinary intellect, he will do well to confine himself to the army, and allow better and abler men by far than he is, or ever can be, to discharge the civil duties to which the people have assigned them.

THE PROCLAMATION.

The President has taken his first step towards carrying out the provisions of the Act of April 20th, A.D. 1871, and has issued his proclamation. Any reader of this address, who is not thoroughly hide-bound in party politics, and so blinded by partizanship as to be unable to form a calm and reasonable judgment over the merits of any State paper issued by the President, will not fail to discover throughout this proclamation only a desire to act cautiously and carefully, and for the best interests of the citizens of the United States. There is nothing whatever in the paper calculated to arouse anger in the heart of any good and loyal citizen. It is utterly devoid of threats, and is confined to plainly and simply setting forth the facts, and an urgent appeal to all citizens, North and South, to conduct themselves in a law abiding and orderly manner. But it is also a firm declaration of the President's intention to carry out the provisions of the law. While cautioning those that heretofore have made loyalty to the Confederacy a plea and excuse for robbery and murder, that unless such actions are at once abandoned, the whole power vested in the Executive will be exhausted in the effort to protect all citizens, and to secure to them their peaceful rights, it urges in a calm and kindly way that the State authorities will take the matter in hand and suppress these outrages, without the interference of the United States authorities. On failure to do so, the National Government intends to act.

There will of course be the usual hue and cry raised over this proclamation. The usual amount of filthy abuse will be heaped on the head of the President, and the same shout go up over State rights and the unconstitutionality of all such interference. It is more than probable that General Sherman's name will be paraded in all the columns of the Democratic press, and new vigor given to traitors to work out their devilish intents against the loyal citizens of the South. At this time of day the man who denies the existence of the Ku Klux organizations all over the South is either a knave or a fool. There is no intermediate pedestal for him to adorn. The fact is so plainly and clearly proven that nothing but a want of brains, or the honest desire to use them, can raise a doubt in the mind of any individual that heretofore loyalty was a crime in very many portions of the South, and treason creditable. General Sherman may have an opinion on the subject, and is undoubtedly entitled to have one. But he does not assert that no such organizations exist. All that he does say is, that he thinks they are overestimated so far as numbers are concerned, and that if the bill was kept out of Congress, and the army at its legitimate duties, that there are enough good men in the South to put down these murderers. That they exist, he does not question—no one but a fool would. That is a fact thoroughly established in his mind by observation. The remainder of his letter is a mere matter of opinion, from which we apprehend the citizens of the United States may dissent without committing any very grave crime.

Since the bill was passed these outrages have become fewer, and we are hopeful that there will be still less, since the determination of the President has been made known. One fact—not an opinion—will arise to confront General Sherman. One at least, that rather affects his conclusions. These villainous outrages have been persisted in for years, and yet the "good people of the South" so far from having put down the marauders have had to flee for their lives. The Army has been kept at its "legitimate" duty so far as Mississippi is concerned, and the records show a terrible increase of outrages in that State under the civil government. These are facts, for which General Sherman may possibly find some explanation, but in order to do so *he* must leave his "legitimate" duties in the army, just as we think he has done in thrusting his opinion with regard to Congress on the public. We do not desire to say more about the General at present, but are nevertheless inclined to believe that it is not one of the duties of his present post to interfere as a military commander with any bill before Congress of the nature referred to.

But the proclamation has been made, and we earnestly hope that it will not be a dead letter. Good has already been effected by the bill, and it is of that nature that gives security to hearths and homes that have known but little peace or comfort for years. The colored race *must* be protected. Independent of all other considerations the Republican party made that race free only in name, if it cannot enforce the rights that naturally belong to that freedom. The Republican party made of them citizens, and having done so, they are to be protected, and must be, just as rigidly as all citizens should be. The proclamation of the President is the first step. If the States take the advice; if oppression and outrage cease; or if it continued, the strong arm of the State authorities suppress them, the United States will not interfere. Otherwise we hope that it will, and in a positive and emphatic manner.

RELIGIOUS INTELLIGENCE.

The anniversary season in New York commands more than a local interest, the chief societies of the different Churches centering at this point. Sunday, (to-morrow) the 7th inst., the anniversary sermon of the American Home Missionary Society, will be preached by Prof. S. C. Bartlett, D.D., of Chicago. Monday evening the Seamen's Friend Society will hold its anniversary. The American and Foreign Christian Union holds its annual meeting on Tuesday evening. Dr. Crosby of New York, Rev. M. D. Kalopothakes, of Athens, Rev. A. M. Mervin, of Chili, will deliver addresses. The annual meeting of the American Tract Society occurs on Wednesday evening. Dr. S. H. Tyng, Hon. W. E. Dodge are among the speakers. The National Peace Convention, and the American Woman's Suffrage Convention, both meet the same day. Speakers of the latter are of both sexes. American Bible Society celebrates its anniversary on Thursday, with ministerial and lay speakers. The American Congregational Union, and the National Temperance Society convene on the evening of the 11th. The Society of Friends meet on Monday the 27th, holding Elder's meetings in different meeting houses.

According to the Constitution of Illinois, neither the Legislature, local or municipal authorities of the State can vote away a single dollar of the people's money for any denominational or sectarian purposes.

The Presbyterian General Assembly of May, 1870, instructed the Board of Publication to consider the propriety of establishing a department of Sabbath schools. The Board have prepared a report, which we presume will be adopted by the next Assembly, namely, to make the Sabbath school work a prominent and organic part of its operations. Statistics show that the vast array of persons in the Sunday-schools promise great usefulness to the Church.

From a circular issued by the responding Secretary of the Presbyterian Memorial Fund, comparatively few of the churches have formally reported the amounts secured for this grand work. When all the churches have reported, no doubt the sum contemplated will be raised.

Chicago ought to be thoroughly leavened, inasmuch as two or three great religious bodies hold their annual sessions in that city this month. We have already announced the meeting of the Presbyterian General Assembly in that city on the 18th. The anniversaries of the various Baptist National organizations are to be held this year in Chicago during the same week. The receipts of the Missionary Union, one of the chief Baptist societies, which holds its annual meeting then, reach over two hundred thousand dollars, being in excess of last year.

The General Synod of the Reformed (Dutch) Church in America, will meet in Albany, New York, June 3d. The Synodical sermon will be preached in the evening by Rev. A. G. Vermilye, D. D., of Utica, N. Y., the retiring President.

It is said of all the minister who were supplying the forty-one Presbyterian churches on the line of the Pittsburgh, Fort Wayne and Chicago Railroad, two years ago, only ten now remain.

The summary of receipts of the American Bible Society for the year, recently closed, show a total of nearly seven hundred and thirty thousand dollars.

The Presbyterian Confession of Faith and shorter Catechism are being translated into the Siamese language.

In view of the difference of opinion which exists in some Presbyteries, as to the right of ordaining by commission, instead of a Presbytery, the question is to be submitted to the General Assembly, which meets in Chicago week after next, for settlement.

At the late meeting of the Allegheny Presbytery of the Presbyterian Church, resolutions were introduced requesting the General Assembly to consider the question of electing pastors and elders for a definite period of time, making them eligible to re-election. The matter was laid over until the next meeting. The Presbyterian *Banner* thinks the proposal for the re-election of pastors, is in opposition to the entire Presbyterian theory of the nature and duties of the pastorate.

The new Episcopal Church about to be organized in Chicago, by the Rev. Dr. Cooper, will combine liturgical and extemporaneous services, and the pulpit be open to all evangelical or orthodox clergymen, restricted by certain forms. Dr. Cooper, says the *Protestant Churchman*, is a man of unblemished character, unusually earnest and faithful in ministerial work, of uncommon intellectual power, and in all respects one that the Church can ill afford to lose.

Rev. William Greenough, who has been laboring for some months in the Fourth Presbyterian church of this city, has accepted the call to that church, and arrangements have been made for his installation.

The Congregational church, at Akron, Ohio, has, by a unanimous vote, discarded the use of wine at the communion table.

Dispatches to the New York *Tribune* represent that Methodist ministers, (not of the Church South) are so much hindered in their work in Alabama, that they have to hide in private places, travel unfrequented roads and bridle paths, and to be guarded at night to avoid death or torture by the Ku Klux. Instances are given of the killing and maiming of ministers and their families.

A lady recently gave one thousand dollars to the Baptist Board to be used for educating the Freemen, with the understanding that not one cent shall go to any one who uses tobacco.

THE STATE.

A NEW private bank has been opened in Salisbury, Somerset county.

GEORGE FRANCIS TRAIN is to lecture on Tuesday, the 9th inst., at Uniontown.

JAMES H. HOPKINS, Esq., of this city, is to lecture on Christian Knighthood in Brookville on the 8th inst.

THE Indiana *Progress* and the Brookville *Republican* are advocating the reelection of General Harry White.

THE Indiana *Messenger* says a rumor, to the effect that all persons engaged in the illicit sale of liquor in this county, are to be returned at the June Court, has gained currency.

THEY are having some heated discussion in Indiana about the Court House clock, which was put up by Mr. Reed, a Pittsburgh jeweler. They call each other all sorts of names now and publish long letters in the newspypers.

THE Clarion *Democrat* says: Mr. David Polk, of Mill Creek township, this county, committed suicide by cutting his throat with a raizor on Saturday, the 15th inst. He was the son of a Presbyterian Minister and a young man of industrious habits. Less than two years ago he married a daughter of Mr. Samuel Whisner, and during the past year has been living at Mullin's mill.

THE Beaver *Argus* says: Petroleum is said to have been tapped in the well on the Dawson Farm, on Little Beaver Creek, in this county; and is rated as a sixteen barrel well. Messrs F. Dawson & Co., are the proprietors of the well. If this proves a success, the price of land in that section will be greatly enhanced in value, and new life will be infused into the productive industry and commerce of our county.

WE learn that ten or twelve cases of small-pox have occurred at Enon station, several of which had proved fatal before Tuesday last at noon. Among the victims are Frederick Kœrner and Mrs. Hyde, residents of that place; and others are not expected to recover. The disease broke out in a hotel, and several persons who stopped there are known to have taken it since they left—two of them are lying at Ellsworth, in Ohio, not expected to recover.

THE Bellefonte *Republican* says: On Saturday evening last, about 9½ o'clock, the saw mill belonging to Cline Quiggle, about two miles from the Beech Creek station, on the B. E. V. R. R., was discovered to be on fire and so far gone as to render all efforts to save it useless. The mill was burned to the ground with one or two piles of lumber. The loss is about $5,000, and said to be fully covered by insurance. It is believed that the mill was set on fire, as no person had been at it that evening nor had it been running for two days prior to the fire.

THE Greenville *Argus* says: Wm. Keck, Esq., an old citizen of this place, and for ten years past postmaster here, was found dead on a lounge in his residence, on Friday morning last, April 28th. When discovered he was cold and stiff, having, apparently, been dead some hours. He had all of his clothing on and was covered with a buffalo robe, and, from all appearences, had sunk into his final rest as quietly as a healthy person is lost in sleep. During the day preceeding his death he had complained of a severe headache, but otherwise was in the enjoyment of his usual health. Mr. Keck was appointed postmaster by President Lincoln during his first administration, and held the office ever since, and was always efficient and faithful in the performance of his duties.

THE Sunbury *American* says: St. Mathew's (Episcopal) Church and school house in this place, was robbed on Wednesday night last. The thieves took from the church the carpets in the aisle, and cut in two a table cloth and took a part, broke open the alms chest and took what small change was in it, and left the following slip of writing on the table: "forgive the Woming That stole the carpet for I stood in need of it bad a nuff I Live in Milton my name is Mary."

From the school house they took a mantle clock and an engraving in a frame representing three choir boys in surplices, with an inscription underneath. "We Praise Thee, O God," belonging to Miss Hogarth, the principal of the school. The villians also left evidence of their vulgarity and villiany in obscene remarks on the blackboard and pieces of paper.

OF all the many blast furnaces in our town and vicinity, the small one belonging to the National Iron Company alone is in operation, and this one came near blowing out one day last week for want of coal. The stoppage of these furnaces necesitates the throwing out of employment hundreds of workmen, and leaving a vast amount of capital unproductive. It has been an enforced stagnation, but now that the furnaces are blown out, but little disposition is manifested by the owners to put them again in blast until the price of iron advances to a high figure. Although pig iron has advanced some $4 per ton since they blew out, it is yet too low the manufacturers say to tempt them to put their furnaces in blast. The Messrs. Groves had, when they quit manufacturing iron, some four thousand tons of pig iron stored. This they have mostly disposed of at the advanced rate, which in the aggregate is a clever realization of profit. When the furnaces will be blown in it would be hard to tell; probably not for some months yet.—*Danville Intelligencer.*

THE SOUTH.

THE number of pupils in attendance at the public schools at Savanah is one thousand seven hundred and thirty-eight.

A VELOCIPEDE rider who was run down and injured by a street car in New Orleans, has sued the company for $10,000 damages.

THE *Sun* says that throughout Memphis and the surrounding districts swarms of caterpillars devour everything green that comes in their way.

THE Bonnet Carre crevasse on the Mississippi continues to extend. The damage to the sugar crop will probably lessen the yield by 20,000 hogsheads.

BRYANT HUTCHISON committed suicide on Monday last, in the Kentucky river, near the Garrard county line. He left a note for his brother, requesting him to take care of his wife and children. No cause is assigned for the rash act.

THE Henderson *News* states that John Reichert, of that city, has a woman in his employ who has not eaten a mouthful for the past six weeks. Astonishing as it may appear, this woman looks plump and hearty, and does not complain of hunger.

THE gold mines of Gainesville, Ga., are beginning to pay so well that many are attracted to them. The iron mines are said to yield as well as those of Pennsylvania, and fine marble is being quarried. The iron manufacturing company of Rome are turning out 10 tons of bar iron and fifty kegs of nails daily, and will soon triple the supply of nails.

ELIJAH ROMINES was shot and killed at Stamping Ground, Scott county, on Monday, by John W. Sinclair. Romines, who was under the influence of liquor, was creating a disturbance in the village, when the Marshal, Mr. Miller, attempted to arrest him. Romines threatening the Marshal, the latter called upon Sinclair to help to make the arrest. To this Romines objected, and after some words between Sinclair and Romines, Romines struck Sinclair with his open hand, and making other demonstrations against him, Sinclair fired upon him with a pistol, hitting him in the side. Romines died from the effects of the wound in about five minutes. Sinclair is having an examining trial at Stamping Ground.

A Barber's Razor.

Recently we have professionally seen two of the worst cases of *Sycosis Contagiosum* which have ever come under our notice. Both patients were shaved by the same barber, and no doubt by the same razor as that used—for the barber acknowledges his fault—in shaving "a man with a bad chin." In one patient the yellowish scales have extended to the upper lip and sides of the face covered by hair. The vegetable nature of the disease, and the rapidity with which the seeds are transmitted from part to part, until the cryptogamic plant surrounds every hair follicle, is only too well known for repetition here. Our chief object in directing public attention to a most serious matter is, that barbers will learn, through us, to be more careful in indiscriminate shaving, and that the public seeking their aid will, for their own sake insist upon what we hope will now become an universal practice in the barber-shop—namely, the razor to be immersed in some warm water before being applied to the face. This is pretty sure to destroy the vegetable organism, should any exist, on the instrument. Those who may have suffered from *Sycosis Contagiosum*, and the physician who has had experience in the treatment of it, alone know the protracted nature of a most unsightly complaint in yielding to treatment, and the value of the hint we offer in the simple immersion of the razor in warm water, and then wiped before use. Indeed, in the filthy barber-shops of our great towns, diseases of more kinds than *sycosis* are propagated, but with that we do not purpose entering upon now. Our simple desire being to record a painful occurrence with which we have recently met—a faithful corroboration of the testimony of Gustav Simon, of Gruby, of Vienna, and of the experiments made by Foville, who noted over and over again the transmission by contagion of *sycosis*, from the use of razor employed in shaving an affected person.—*London Medical Press*

TO RUPTURED PERSONS.

We have often said, and now repeat, that persons who have any rupture or condition requiring mechanical support, that there is no better place that can be found than that of Dr. Keyser, of 167 Liberty street. We have not only known rupture relieved, but we have seen crooked spine and varicose veins treated with the most perfect success at the same place, and we would advise our readers to cut this out and go no where else when they need such services, and we do so with the full assurance that they will get full satisfaction. The Doctor has had an experience of over thirty-five years in the treatment of rupture, and it would be more than singular if in that time he had not acquired an entire mastery over that terrible and now common malady. The Doctor is now called in all difficult cases of rupture. Remember his office, 167 Liberty street.

THE ONLY PLACE IN THE CITY TO GET PECK'S IMPALPABLE DENTIFRICE.

The components of this Powder are strictly free from siliceous matter, and are entirely soluble in the fluids of the mouth. Especial care is taken to reduce the powder to the finest degree of commination. Under these conditions it is a perfect Preservative for the Teeth, being sufficiently hard to reduce the tartar formations without at all affecting the enamel. The powder should be used at least once a day. Also, fresh Drugs and Patent Medicines of all kinds sold at the very lowest prices.

PREVENTINE MEDICATION.

A radical change has been introduced in the practice of medicine. Physicians have ceased to torture and prostrate their patients. Instead of pulling down, they build up; instead of assaulting nature, they assist her. Cupping, leeching, blistering, venesection, calomel, antimony, stupifying narcotics, and rasping purgatives, once the favorite resources of the faculty, are now rarely resorted to even by the most dogmatic members of the profession. The old creed was that disease was something which must be expelled by violent artificial means, irrespective of the wear and tear of the vital organization in the process. The new creed recognizes the improvement of the general health as essential to the cure of all local ailments. Hence it is that Hostetter's Stomach Bitters, the most potent vegetable tonic that pharmacy has ever brought to the assistance of nature in her struggles with disease, has been cordially approved by practitioners of the modern school. It is pleasant to reflect that reason and philosophy have at last been victorious over the errors of the past, and that thousands, and tens of thousands, of human beings are alive and well to-day who would indubitably be mouldering in their graves had they been subjected to the pains and penalties which were deemed orthodox and indispensable thirty or forty years ago.

Preventive medication was scarcely thought of then; but now it is considered of paramount importance, and the celebrity of the standard invigorant, alterative and restorative of the age, (a title which Hostetter's Bitters have fairly earned by their long career of success,) is mainly due to its efficiency as a protective preparation.

A course of the Bitters is urgently recommended as a safe and certain antidote to intermittent and remittent fevers, diarrhea, dysentery, and other maladies.

SELLERS'
Imperial Cough Syrup

Has given relief to thousands who have used it, and the proprietor is persuaded that it has the power to impart benefit that cannot be claimed for the cough mixtures in general use.

Most of the mixtures sold for coughs are composed of spirituous and inflammatory articles, which, while they give little relief, really do harm.

THE IMPERIAL COUGH SYRUP.

Contains no spirituous ingredients whatever, and may be used in all cases not requiring active medical treatment.

HELMBOLD'S
Fluid Extract Buchu
HAS ACQUIRED A
WORLD WIDE FAME.

All of my preparations are meritorious. A period of twenty years has PROVED THIS to be the case.

See remarks made by Benjamin Travers, F. R. C. S., &c. Speaking of those diseases, and diseases arising from the excess of mercury, he states that no remedy is equal to the extract of Sarsaparilla; its power is extraordinary, more so than any other drug I am acquainted with. It is, in the strictest sense, a tonic, with this invaluable attribute, that it is applicable to the state of the system so sunken, and yet so irritable as renders other substances of the tonic class unavailable or injurious.

See REMARKS of the GREAT CHEMISTS and PILL MEN OF AMERICA.

WM. R. WARNER & CO.
154 North Third street, Philadelphia, Pa.

H. T. HELMBOLD,
Esteemed Friend:
I congratulate you on having the handsomest and at the same time the MOST EFFECTIVE PILL that I have ever known in my experience.
WM. P. WARNER & CO.

H. T. HELMBOLD
Will remark in conclusion that his Remedies are the result of long and careful study. The Fluid Extracts have been before the public twenty years; the sale of them in that time proves their value. All have been benefitted by them who followed my instructions, and to-day they stand UNEQUALLED in the sale of their class and UNSURPASSED by any Medicament in the Dispensary of the United States, not excepting a single HERB, ROOT, PLANT, or scientific preparation.

Pharmaceutical I claim all mine to be, and have never patented a single one.

All Stand on Their Merits.

The Pill I have thought of offering to the afflicted for ten years.

They are now perfect, and I shall stake my time, money and fame on their effectiveness. The inviting style in which the Pill itself is made, the bottle, label, wrapper, all show with what care they have been prepared. After examination, no English or French preparation will show greater care, and I am really proud of them.

Instead of the nauseous-looking, carelessly prepared Pills vended generally and put up in wooden boxes, and made by offered by druggists, or manufacturers of medicines, those have.

Test the medicine offered by

Ayer's Hair Vigor,
FOR RESTORING GRAY HAIR
To its Natural Vitality and Color.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray; and either of them disposes it to fall off prematurely, and either effect is unsightly and unpleasant to behold. DR. AYER'S consummate skill has produced an antidote for these deformities, which has won gratitude for him from multitudes of women and men. His HAIR VIGOR sometimes reproduces lost hair; and always restores to faded and gray hair its natural color, with the gloss and freshness of youth. The comparatively few bald and gray heads, that we now see, are those who have not yet discovered the virtues of AYER'S HAIR VIGOR for renewing the hair. The fresh and youthful hair we see on older heads is often the product of his art. If you are disfigured, or made old, austere and ugly, by gray hair, restore it to its youthful color, and with it your features their original softness and agreeable expression.

As an elegant dressing for beautifying the Hair, it has no superior.

NEW YORK, May 5, 1871.

Gold dull and steady at 1,11⅛@1,11⅜. Loans were made at from 1 to 2 per cent. Clearances, twenty-two millions. Shipments to-morrow will be light. Governments firm, closing at an advance of ⅛c on 5-20 series. In the stock market the bulls made another attempt to advance the prices but without much success. The volume of the business throughout the day was generally light and no large blocks of stock changed hands and the market had very much the appearance of the brokers market. Reading and Lake Shore were strongest in the list the rumor of the scrip dividend on the latter having been received. Erie advanced a little at the close. Express shares dull but firm; stocks have been turned in several instances to-day at a change of ⅛ per cent. for buyers on 60 days. The market closed steady; money abundant at 5 per cent. State bonds dull and steady. Tennessee advanced a fraction on second call.

FRIDAY, May 5, 1871.

APPLE BUTTER—Sales of prime, in crocks and kegs, at 70@75 per gallon.

ASHES—Common Soda, 3¾@4; refined do, 4½; Pots 7¼@7½; Pearls, 9@9½.

APPLES—Receipts very small and the season is about over.

BUTTER—Continues to arrive freely and the market is completely glutted; prime to choice grass butter sold to-day at 20@23, and fair to medium at 15@18, and dealers are all anxious to realize. The local trade is not able to take all that is offering and there is no inquiry for shipment.

BROOM CORN—Dull; sales at 4@5 for red and 5@6 for green. All hurl held at 7 cts.

BEANS—Dull; $1,50@2,00 per bushel.

BEESWAX—Quoted at 28@30 cts.

COTTON—Sales at 12½c per lb to upholsters and 14@14½ for spinning.

CHEESE—Sales of new Ohio Cheese at 16 for Goshen; 15 for Factory and 13@14 for W. R. Prime old York State Goshen held at 18.

CARBON OIL—Is quiet and unchanged; standard brands, 21@21½c, in a jobbing way—small lots, 22½@23.

CORNMEAL—Demand very light and prices unchanged; small sales at 90 cts per bushel.

CANDLES—Quoted at 12 cts for mould, and 19 for star.

CANNED GOODS—Tomatoes, $2,70@2,75 per dozen; peaches, $3,75 per dozen in 3-lb cans and $2,50 for 2-lb. Winslow's Corn, $2,75@3 per dozen.

DRIED FRUIT—Apples continue dull with a good supply, particularly of the commoner grades—really prime bright apples are scarce; may be quoted at 4@7 cts. Peaches quiet and unchanged; 10@10½ for quarters; 11@12c for mixed, and 13@14 for halves.

EGGS—The market seemed to be sluggish to-day and we heard of sales at all kinds of prices, 12, 13, 14 and 15. Some dealers reported the market steady at 15, while others reported it dull at 14—however, 14 and 15 may be regarded as the ruling quotations for fresh packed.

FEATHERS—Scarce and in demand, with sales of No. 1 live geese feathers at 74@75—usual advance in a small way.

FLOUR—Is quiet and unchanged and the demand is entirely local. We continue to quote at $6.75@7,00 for fair to good spring extras; $7,25 for choice Minnesota baker's flour; $6,75@7,00 for good red winter wheat; and $7,25@7,50 for white. Rye Flour, for small lots in store, $6,25.

GRAIN—Wheat is in steady milling demand and the mills are taking all that offers at quotations, $1,35@1,43 for red and $1,45@1,53 for white; as we noted in our last report, strictly No. 1 would no doubt bring $1,45 for red, and $1,55 for white, but the offerings of this character are very meagre. Oats reported rather firmer but without quotable change, 55@56 buying and 58@59 selling—small lots in store, 60@62. Corn is also reported firmer and the stock is said to be comparatively light, though as yet there is no quotable advance; mixed ear in bulk, 68; mixed shelled, 70; prime yellow shelled, 72@73. Rye is dull and cannot fairly be quoted above $1,00. Barley is quiet and unchanged, 80@85 for spring and 90@95 for fall.

GROCERIES—The latest advices from New York are to effect that the Coffee market continues sluggish; the finer grades are held pretty firmly but medium and common are dull and weak and, it is thought, that slight concessions would be made in order to effect sales. Raw Sugars continue strong and somewhat excited—within the past ten days there has been an advance in the east of at least half a cent per pound. Refineds, are also firm and in better demand, and stocks are comparatively light throughout the country. Prime molasses and good standard syrups are held firmly though the demand is only moderate. Rice is quiet and unchanged.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, May 5, 1871.

The most important feature we have to notice to-day, is a slight reaction in crude on the creek, occasioned, it is thought, by New York selling largely short. The New York operators it would seem have not much confidence in present prices being sustained, otherwise they would not sell "short," and for a time being at least these short sales will have a tendency to depress the market. The advices from the east indicate nothing particularly new or important, excepting that refined was easier, as compared with Thursday, as there was less inquiry, though there is no quotable change in prices. Here, there is little or nothing doing, and notwithstanding the the market is firmer and prices higher, there is no improvement—the situation is no better now, in fact not as good, as it was a week ago, as crude has advanced more than refined; and, besides, the advance in freights on crude on the Valley Road together with the reduction from the oil regions to the seaboard, has had a bad effect on the oil interests of Pittsburgh.

CRUDE.

Seller May may be quoted at 10⅞@11, and the same quotations will answer for seller until July—sale 1000 bbls, latter delivery, at 10¾. New York is said to have sold 10,000 bbls on lower creek early in the day, seller until July, at $4 25, and later in the day, 5000 bbls, same delivery, at $4,20.

REFINED.

Very quiet—not a single sale reported. May 1st half, 23@23¼; last half, 23¾; June, 24; last half 24½; July, 1st half, 24¾; last half, 24¾; buyer all year, 26½.

Prices appreciated from five to ten cents per barrel in this locality. There was considerable more inquiry, and buyers were more inclined to operate than for some time past. The market opened on the lower road with $4.25 bid and from $4.30@4.35 asked; at the close $4.30 was offered for regardless with sellers at $4 35 on the upper creek. PITTSBURGH IRON MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, May 5, 1871.

We note this week but a moderate demand for pig metal—the transactions being confined chiefly to such lots as are necessary to keep up the mixtures at the respective mills. Prices have, however, been fully maintained and the furnaces do not manifest any disposition to make concessions—being generally sold up for some weeks yet. The rise in the rivers has enabled a considerable quantity of metal from St. Louis to find its way to this market—having all been sold to arrive. Nothing definite having yet been acceded upon, as to the coal troubles in the east, the receipts of metal from that quarter continue meagre and as a source of supply for this market cannot be relied on to any great extent for some time yet. Blooms and champlain billets have been in more request—the demand for such goods as they go into being large.

The manufacturers complain of some lack of orders for merchant bar, and a few of the mills have reduced their production to single turn, but the nail factories are kept fully employed filling orders and are accumulating no stock. Prices for both nails and bars are firm and the established rates fully adhered to.

Following is a report of the sale of crude irons during the week:

The hog chain was blown out of the boat by the gale, and at last accounts the barge was in a sinking condition.

SPECIAL NOTICES.

☞CONSUMPTION.

Its Cure and its Preventive.

BY J. H. SCHENCK, M.D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT.

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self-assuring, self-convincing.

The Sea-weed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionary disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbification of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but, unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Sea-weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature can not be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings, it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country, in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of the blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office No. 15 North Sixth street, Philadelphia, every Saturday, from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instruction that accompany them. First create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone for ever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

Price of the Pulmonic Syrup and Sea-weed Tonic $1 50 a bottle, or $7 50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers. ap18:p3-TTHS

GRATES.

GRATES.

Keep Your Houses Clean,

AND

SAVE FUEL,

BY USING THE

Wellman Patent Reflector

STOVE AND GRATE.

Which Stand Without a Rival.

The WELLMAN STOVE is furnished with the "REFLECTOR GRATE," and possesses all the advantages of an open fire place; it is specially adapted to houses where the flues are too small to admit a grate, and affords all the comforts of a CHEERFUL OPEN FIRE.

1st. As a radiator of heat it has *double* the intensity of any other grate.

2d. It is unquestionably the most cleanly—no soot or ashes escaping into the room—which, in the ordinary Grate, proves so detrimental to carpets and furniture.

3d. The combustion is *perfect*. There is no waste in unburnt cinders—every ounce of the fuel is so completely consumed, that nothing remains but the finest ashes.

4th. As an economizer of fuel there being an *actual saving* of at least 25 per cent.

5th. It is highly ornamental.

6th. It is set so deep in the chimney, that it is much safer, and also less liable to puff in windy weather.

7th. A slight motion of the shaker cleanses the entire fire, and causes it to burn with great brilliancy and intensity of heat.

Samples may be seen and references had at the store of W. BARNES, corner of 3d avenue and Market street, Pittsburgh; W. F. GOODWIN, 66 Federal street, Allegheny, or at the FOUNDRY, corner Duquesne Way and Water street, Pittsburgh.

Parties who are building, or who contemplate changing Grates, are respectfully requested to examine "The Wellman." Satisfaction guaranteed in all cases.

HOME NEWS.

For gross disorderly conduct P. McClintock was fined $25 by Squire Ammon yesterday.

George Graham, for beating his wife, was yesterday fined ten dollars and costs by Mayor Brush.

A General Meeting of the American Church Missionary Society will be held in St. Andrew's Church (Episcopal) to-morrow evening.

Wilson Cush paid $10 into the treasury of East Birmingham, through Justice Ammon, for disturbing the peace of that borough yesterday.

Michael Kernan was sent to the Work House for 90 days yesterday by Justice Ammon on a charge of disorderly conduct preferred by Maria Theresa Schmole.

Alderman Koenig yesterday issued a warrant for the arrest of George Byers on a charge of disorderly conduct preferred by Frank Abel. The parties reside in South Pittsburgh.

A man who gave his name as Arbuthnot, was captured on Ohio street, Allegheny, last night by Officer Bowden, making off with a case of strawberries, supposed to have been stolen. He was committed to the lock-up for a hearing.

A coal digger named John Morris, about thirty years of age, laid down with his head on the rail, at Chartiers, on the Pittsburgh and Erie Railroad, on Wednesday night, and was killed by the 5 A. M. train on Thursday. Whisky was the cause.

Double Role.—Carrie Stokes appeared before Justice Krehan of Birmingham, yesterday in two roles. First as complainant against Louisa Stokes for assault and battery, and next as defendant against a like charge brought by Anna Maria Duntsler. Both charges will be adjudicated upon to-day.

Monday evening has been set by Justice Ammon for a hearing in the case of John Mulaney and John Irwin, supposed to be the parties who bound and gagged Mrs. Rogers of East Birmingham, who was lying sick in bed, and robbed the house a short time ago.

A ladies' turners society was organized at the Hall of the Germania Turners Society, on Penn street, a few evenings ago, of which Mrs. Matilda Bocke was elected President, Miss Muhlstein, Vice-President and Miss Caroline Lubm, Secretary. About twenty ladies joined the society.

Uniform Adopted.—Brig. Gen. Rowley, Adjutant Gen. Hill, Quartermaster Galisath, and Aids de Camp McCracken and Gestner, held a meeting at the Grays armory last night for the purpose of adopting a uniform for the Field and Staff officers of the First Brigade, Eighteenth Division. After some discussion the United States regular uniform was adopted, and a committee appointed to go to Philadelphia to order it.

Wholesale Assault.—James M. Pate, the driver of a coke wagon, made oath before Alderman Strain yesterday charging an assault and battery against David Jones, Ed. Bennett, Ed. Davis, John Roberts and Charles McCauley. He alleges that while he was loading his wagon at McClarren's coke ovens, near Soho, the accused assaulted him with brick-bats, sticks, stones and other missiles. Warrants have been issued.

Hon. Neal Dow.—We would again call attention to the temperance lecture by General Neal Dow at the Christion Association Rooms this evening at 8 o'lock. Tickets can be had on application at the Y. M. C. A. Rooms. A meeting will be held on Sabbath evening at 7½ o'clock under the auspices of the Y. M. C. "The New Branch."

"The Allegheny and Monongahela Branch" of the Connellsville Railroad extending from Nine mile run to Negley's run, six and a half miles in length, will cost $250,000, including rights of way. Yesterday viewers were appointed in the Court of Common Pleas, to assess damages of the road passing through the grounds of the following persons whose properties were not mentioned in the former petitions, which we mentioned. Rev. A. J. Rich, John Bouss, Alex King, heirs of A. Hoevler, J. M. Murtland and John Gazler, Frank Ferree, Lewis Lenkard, George Findley and the property of the East End Gas Company.

Painful Accident—Knee Sprained.

Yesterday morning about half-past eight o'clock, a tinner by the name of Thomas Mahon, employed by Mr. G. C. Duffy, met with a painful, but not very serious accident. He was engaged in putting up some spouting on the two-story house at the corner of Sixteenth (Mechanic) street and Penn avenue, when the scaffolding upon which he was standing gave way, precipitating him to the ground, fortunately alighting upon his feet. He got up and, as soon as the scaffolding was repaired, resumed work, and remained at it until dinner time, but when he started to go home he found that his knee, which had been struck by a joist in the fall, was so badly sprained as to disable him from working. A carriage was procured and he was taken to his home on High street where the proper remedies were applied.

Officers Elected.

A meeting of the suffragans was held at the Hall of the G. A. R. Fourth avenue last night for the purpose of holding their annual election. The following officers were elected to serve during the ensuing year.

President, Miss Matilda Hindman; Vice Presidents, Mesdames J. Herron Foster and A. P. Mitchell; Recording Secretary, Mrs. Helen Jenkins; Corresponding Secretary, Miss Annie Wilcox; Treasurer, Miss Emma Wilcox; Executive Committee, Miss Jennie Hindman; Miss Kelly; Mr. Jenkins; Mr. McKelvy and Mr. Barger.

The only other business of importance transacted was the passage of a resolution petitioning Congress to pass a Sixteenth Amendment explicitly granting the right to vote to women.

On motion the meeting adjourned.

AN UNSUCCESSFUL STRATAGEM.

A Father Tries to Avoid Arrest by Holding on to His Child.

Mrs. Eliza Gothold preferred a charge of assault and battery before Alderman McMasters this morning against her husband, Henry Gothold. She alleges that the accused came to her and demanded what money she had about her. She having but twenty-five cents in the house and no bread, and knowing that if she gave to him it would be spent for whisky, refused, whereupon he gave her a most unmerciful beating. A warrant was issued and two officers went to the house to arrest Henry, who, as soon as he saw, picked up his little child, which he held tightly in his arms, thinking doubtless that the officers would not arrest him on its account. In this, however, he was mistaken, for the officers failing to get the child away from him they were both taken to jail, where the father judging that the dodge did not work surrendered the child.

FIGHT IN A COAL BANK.

Two Boys get into a Dispute a Mile Underground and one is Horribly Beaten.

Yesterday morning Cuthbert Richey made oath before Alderman McMasters charging Landis Black, a lad aged seventeen years, with aggravated assault and battery, committed on his son, Thomas Richey. Black and young Richey are employed as mule drivers in a coal bank at Mansfield, the latter being but fifteen years of age. Yesterday they were driving in the bank, about a mile under ground, when they got into a dispute about a little job of work. Black, it is alleged, attacked young Richey, knocking him down, kicking him, jumping on him, and otherwise abusing him to an extent that he had to be carried out of the pit. The services of a doctor were found necessary, and the injured boy is now under medical treatment.

An officer was dispatched to Mansfield to arrest the accused.

NEWELL COMMITTED FOR TRIAL.

Bail Fixed at $5,000 on One Charge, and $3,000 on the Other.

Yesterday morning the case of Johnny Newell, an account of whose arrest the day before was published, was called up by Mayor Brush. A large and eager crowd was present and evinced the greatest interest in the case. Two informations had been filed by officer Johnson, one for mayhem, and one for assault and battery. Newell was brought down from jail at ten o'clock, and after the charges had been read to him waived a hearing. The Mayor then informed him that he would hold him in $8,000 bail for trial at court, $5,000 on the charge of mayhem, and $3,000 on that of aggravated assault and battery. This not being forthcoming, Johnny was recommitted to jail.

It is said that "Toney" Newell, a brother of the accused, who was at the hearing, was fully prepared to make a cash deposit for the appearance of Johnny, but deeming the sum fixed by his honor exorbitant, concluded to let his brother go back to jail for the present and appeal to the Court for a reduction of the amount. Whether the Court will coincide with him is yet to be seen.

"BOB" AGAIN.

His Prospects for the Penitentiary—Eighteen Indictments Against Him—His Future Outlook.

The prospects of a long term for "Bob," the counterfeit dealer, would be highly encouraging to him had he any inclination for that retired retreat. Yesterday his case engaged the attention of the Grand Jury, who, as a result of their deliberations, brought in *eighteen* true bills against him for dealing in counterfeit money—one for each distinct kind of notes put upon the market by him. Among the notes were those on the following banks: First National of Poughkeepsie, New York; (tens) Farmers and Manufacturers National of Poughkeepsie; (tens); Central National, of Rome, N. Y., (tens); Shoe and Leather National of New York; Merchants and Manufacturers of New York, (twenties); National Bank of Commerce of New York, (twenties); treasury notes (fives); fifty cent pieces of fractional currency, and twenty-five cent pieces. He was thus, it will be seen, pretty extensively engaged in the business and was as successful as his business was extensive. For years he has eluded the vigilance of the officers. It is quite likely, however, that he is now located.

He would have been tried next week but the illness of Judge McCandless necessitates an adjournment of the case until a special session can be held, which will be probably in about three weeks. If found guilty on all the indictments, he will be sent to the Penitentiary for *ninety years*—five years on each indictment, that being the minimum; the maximum would be fifteen years on each or an aggregate of two hundred and seventy years. There is therefore a reasonable probability that "Bob" will pass the remainder of his days across the river.

His case is certainly an important one and the trial will be looked to with interest.

White House Carpet.

The Sublime Porte, in order to testify his respect and show his kindly feeling for the Government of the United States, caused a beautiful carpet to be manufactured for the East Room of the Presidential Mansion. It is acknowledged by all who have seen the elaborately and exquisitely finished carpet that it is the most beautiful piece of workmanship ever brought to the United States. It is suggested that, by way of reciprocating the handsome compliment, the Government of the United States should order a set of Boucher's elegant furniture for the drawing-room of the Sultan's Palace. It would sit gracefully on the most exquisitely finished carpets that Turkey can produce. It is doubtful, however, whether Boucher could execute an order of that kind in less than two years, as the American sovereigns of this city are taxing to the utmost the capacity of his immense establishment. Call and examine the finest furniture to be found in this city at C. A. Boucher's, 45 Smithfield street.

U. S. DISTRICT COURT—JUDGE M'CANDLESS.

This Court was in session for a short time yesterday. Judge McCandless was brought from home in a carriage, and had to be carried, sitting in a chair, up into the Court room to preside, and back again after Court adjourned. The following business was disposed of:

Thomas Collins and Martin Smith, both of Venango county, plead guilty to indictments for carrying on the retail liquor business without paying the special tax. The defendants were each sentenced to pay a fine of $1,000 and to undergo six months' imprisonment in the Venango county jail, the minimum allowed by law.

Joseph Plattenburg plead guilty to two indictments for passing counterfeit money. The Court suspended sentence on one indictment and on the other the defendant was sentenced to pay a fine of five hundred dollars and five years' imprisonment in the Western Penitentiary. This was the minimum sentence allowed by law. Plattenburg was a builder from Scranton, Pa. He is a man about fifty years of age and bore as honest a countenance as any physiognomist ever looked upon. His case was rendered interesting from his former respectability and the fact that he made no defense.

On motion of F. C. Lazear, Esq., John B. Hunkaton, of Chester, Pa., was duly admitted to practice.

Court then adjourned.

Following is a list of the bills of indictment found by the Grand Jury.

Counterfeiting Cases.—Lewis M. Roberts, alias Altie *alias* "Bob," 18 bills; George Belfort, Elizabeth Orr, Michael Hartzell, Jno. Stettler 2 cases; Wm. Castle, *alias* Musser, Jacob Mainhart, 3 cases; Wm. Schwartzman, Jno. D. Ertweiler, 2 cases; John W. Frantz, Joseph Plattenburg.

For Retailing Liquor Without Paying Special Tax.—Bauer & Zimmerman, Pat. Griffin, A. A. Taggart, Florence Bizzell, Michael Hays.

RIDGE AVENUE SEWER.

MESSRS. EDITORS: Your correspondent, "South-side," is evidently laboring under a mistake in reference to the hasty passage of the ordinance for the above work by the Allegheny Councils, as the following statement will show. The petition for the sewer was presented in Select Council at the meeting held March 21st, and, as usual, was referred to the Street Committee, as appears in the GAZETTE of the 22d. At the next meeting, three weeks afterwards, on the 13th of April, no remonstrance having been presented, the ordinance authorizing the building of the sewer was adopted without dissent. On the 15th it was published in the GAZETTE and also on two succeeding days. Then on the 15th proposals for building the sewer were asked for in the official papers, which notice appeared for five days, subsequently at the end of which time, the bids were opened and the contract was let to the *lowest bidder*. Everything was regular and according to law. *After the letting of the contract* a remonstrance against the sewer was presented in Councils, and, as it was too late to effect the matter, was laid on the table, I believe. Now Messrs. Editors, I feel that however much occasion there may be for criticising the action of Councils, there is absolutely no grounds for complaint in this case. Where a petition is properly signed, regularly presented, allowed to lie over for three weeks, and be published, and no opposition shown, it is the sworn duty of Councils to comply with the prayer of the petitioners, where the work asked for is according to law, and not inconsistent with the privileges of citizens. I hope when your correspondent reviews the matter in the light of these facts, he will accord to Councils the "justice" which he is anxious to have meted out to himself and others.

Yours, NORTH SIDE.

Mellor & Hoene's Musical Emporium.

It may not be generally known that Messrs. Mellor & Hoene, dealers in music and musical instruments, are now offering to the public a piano manufactured expressly for them and bearing their own name into market. It is a piano which, in excellence and durability, stands with equal superiority to any manufactured. There has been a demand, and it has been seriously felt by many, to have a piano equal to the best, and yet within the range of a reasonable price. Awake to every interest, Messrs. Mellor & Hoene have at length succeeded in obtaining an instrument which they are now introducing into our market, of the best material, and with all the late improvements combined, including the new over-strung base, Agraffe treble and full metallic frame, with wooden bearings. These pianos have been tested and are acknowledged equal in power, clearness and brilliancy of tone with those of other manufactures and at far less cost. The prices are at such extreme low figures as to bring them within the reach of all who may desire one. Messrs. Mellor & Hoene are practical musicians, and have had years of experience, hence they do not hesitate to announce to those desirous of purchasing a piano, that they can and do offer such liberal inducements that will give their house the precedence. The house is proverbially known as a first-class and reliable one, and the merits of their claims should be acknowledged. Their warerooms are No. 53 Fifth avenue, nearly opposite the Opera House.

ROENIGK & GILL.

Upholstery—Lace Curtains, etc.

At this season of the year, when we are giving our houses a general overhauling, it is well to look around among the different stores where house furnishing goods are made and sold, in order to obtain the new outfits that are necessary to replace those which have become useless or worn out. We take pleasure in recommending to our readers the extensive establishment of Messrs. Roenigk & Gill No. 61 Smithfield street, who are among our largest dealers in lace curtains, cornice fixtures, beds and bedding of all kinds and general upholstery. Especial attention is given to the bleaching and finishing of old curtains, making them as good as when new. They are also the agents of the "David's Patent spring shade," which is fastened to the middle of the window frame and can be made to drop to the bottom, or raise to the top of the sash—a very useful and ornamental shade. Specimens of this kind can be seen at the First National Bank Building or at their store, No. 61 Smithfield street. This ingenius contrivance is especially recommended for office and store windows. A complete stock of goods in their line is always kept on hand.

THE town of Washington is preparing to celebrate the completion of a railroad at their borough within a fortnight.

Concordia.

This is the name of a little bijou of a hotel about to be opened on the corner of Smithfield and Diamond streets, in the building recently occupied by the offices of the Pittsburgh Gas Company. This has been purchased by Mr. F. Schmidt, who has had a great deal of experience and knows just how to keep a hotel. The whole house has been renovated and completely refitted from the attic to the cellars. First there are ten bed chambers for the guests, then a neat bath-room, a kitchen with a hospitable looking range and all of the other appliances necessary for the business; a dining-room and a handsome parlor with three windows fronting on Smithfield street, and draped with Nottingham curtains. The walls of this room are covered with a plain lavender paper, with here and there a golden leaf scattered over it, while the ceiling is tastefully frescoed, and a fine piano is at the disposal of musically-inclined guests. On the ground floor is the saloon, and it is such a saloon as would do any one's eyes good to behold. The wood work is all of massive black walnut carved in the richest and most tasteful manner. The style throughout is Grecian. The counter is heavily panneled, and adorned by carytides, symbolically wreathed with hops, and vines. Back of the counter is a gorgeous sideboard with French mirrors and beautiful bunches of fruit, game, fish and vegetables, while the whole is surmounted by two merry figures of the infant Bacchus, all of black walnut. The walls are panneled and adorned with graceful paintings of Hope, Spring Spring and the Four Seasons. The windows of French plate, and the doors of ground glass, while the stock of wines and liquors are said to be superb. Taking it all in all we never have seen the like of the Concordia.

The whole plan of the decorations and the wood sculpture are the work of Mr. F. Gebel, who has recently arrived from Berlin, where he executed the carvings in the new Jewish Synagogue, as well as those in the Church of St. Isaac in St. Petersburg. He is now to be found with Messrs. Young and Son, or at No. 71 Sixth avenue. The carpentry is the work of Erk and Oswald, of Allegheny; the painting of R. C. Oehmler, of Middle street, Allegheny. The paper was chosen in New York by Joseph Shidle & Sons, and hung by W. Frenkle & Co. The whole thing is most creditable and elegant, and cost Mr. Schmidt, for decorations alone, more than $5,000.

The Fair now being held at City Hall is for the benefit of St. Bridget's Church.

Home Shuttle Sewing Machine.

This invention relates to a new shuttle sewing machine, and consists in so combining with each other an oscillating shuttle driver, a double cam-feed motion, and a slotted plate for moving the needle up and down, that in one machine the main advantages of many different kinds of sewing machines are contained, whereby a complete and satisfactory operation, as well as great simplicity of construction can be obtained.—*Scientific American of Aug. 12, 1868.*

The Home Shuttle is capable of performing the widest range of work from the finest gauze to many thicknesses of cloth, with ease, rapidity, accuracy and the fullest satisfaction to the operator.

Get the Home Shuttle and you will never rue the bargain, for you will have in every respect a first-class sewing machine. It has the under-feed and makes the celebrated "lock-stitch." It will cost you but thirty-seven dollars. Monthly payments are accepted. Joseph Le Fevre, Agent, No. 2 Sixth street, second floor, near the Suspension Bridge.

State Senator.

MESSRS. EDITORS:—The new apportionment bill gives Allegheny county three Senators. Two of these are to be chosen this year, Mr. Anderson holding over till 1873.

The county naturally divides itself into three districts—north of the rivers, south of the rivers, and between the rivers. Each of these divisions has, therefore, a right to one Senator.

The Senator holding over, Mr. Anderson, is from between the rivers. That district is thus provided for until 1873.

North of the rivers there seems to be no opposition to Mr. Graham's renomination, and we may thence conclude that *that* division is, or will be, provided for.

There remains the district south of the rivers. No person has yet been named for that district. It had an excellent representative during Mr. Errett's service of two years in that body, and would be fortunate if it could get him back.

In common with a very large number of South-Side men to whom I have spoken on this subject, I would be very glad to see Mr. Errett back in his seat in the Senate Chamber. I therefore take the liberty of proposing his name for that purpose to the Legislative Convention which will assemble June 6th. I feel very certain he will be nominated unanimously by that body, if he will consent to serve.

I know Mr. Errett is very useful to the government where he is; but we need him in the Senate, and we have a right to insist on his return. When I say "*we*," I mean that the County and State needs him, as well as the party. He occupied a front rank in the Senate during his service there, and extorted not only the respect but the praise of his political opponents. He has the nerve and the pluck to stand up for what he believes to be right, and was of invaluable service to the Commonwealth in checking extravagant expenditures and preventing unwise legislation.

I trust, therefore, that a general, spontaneous call will be made upon him to run for the Senate this year, and that no opposition will be made to his nomination, if he should consent to run. SOUTHSIDE.

Amusements.

PITTSBURGH OPERA HOUSE.—The performances of to-day will close in this city the representations of that most gorgeously mounted and in every way well rendered drama, the "Black Crook." To those who have not yet witnessed it, we would say do not let this opportunity slip, it may not soon occur again. The matinee commences at two o'clock; evening at the usual hour.

TRIMBLE'S VARIETIES.—Two glorious bills will be rendered at this establishment to-day, at which the beautiful and talented Female Minstrels will appear with an entire change of programme at each. Matinee at 2:30 P. M.

THE CIRCUS.—The circus last night was perfectly jammed, and the large audience went away delighted. All the performances, especially the trick horses, are excellent. The collection of animals is the largest and most interesting that we have ever seen in a combination establishment. There will be two exhibitions to-day, afternoon and evening. Entrance from both Penn and St. Clair streets.

ACADEMY OF MUSIC.—Carncross & Dixey's Minstrels, the best traveling, will open in this city on Monday night. The troupe comprises some of the most famous names known to the profession, and their songs and witticisms are always of the most chaste and amusing character.

Remember St Bridget's Church Fair.

Messrs. B. C. & J. H. Sawyer.

For the past twelve months I have used almost exclusively, your "Barbers' Soap," and I cheerfully bear my witness to its superiority. It is far more pleasant than the highly scented French soaps, or the imitations that are so commonly used, and is much more durable and economical, either for shaving or for use in the bath. I am certain it only needs a fair trial to commend it to very general favor; besides being a home manufacture, it is a superior article that justly merits commendation. JOHN SCARBOROUGH, Rector of Trinity Church, Pittsburgh.

A Pleasant evening to be spent at City Hall.

I Have been using Sawyer's Barber Soap for about nine years, and I have no hesitation in saying that it is the best shaving soap I have ever used. The Runaways found in New York—The Man Escapes but the Girl is Arrested and Brought Home.

We published some days ago the account of an elopement of a married man named James J. Benze, proprietor of a milinery store at Beaver Falls, with Miss Josephine Marriner, a young girl of nineteen who had been employed as clerk in his store. From the New York *Herald*, of Thursday, we clip the following in relation to the runaway couple:

"A brother of Miss Marriner came on to this city and informed Inspector Dilks of the flight of his sister with Benze, and the supposition that they had come on to New York. Detectives Tilly and Tully, of the central office, were detailed to hunt up the fugitives, and after a diligent search found them living together at No. 147 Chrystie street, where they were domiciled as man and wife. Yesterday the detectives found the fugitives at home and proceeded to effect their capture. Benze, on learning that his visitors were police officers, became very much excited, and leaping out of an open window landed on the sidewalk and made his escape. His fair companion was arrested, and yesterday afternoon left for her home with her brother.

J. S. Dilworth & Co.

We have from time to time referred to the growth of our wholesale grocery trade and to the several houses distinguished for the extent of their stocks and sales. We take special pleasure in calling attention to the immense stock advertised in our columns to-day, by the eminent old house of John S. Dilworth & Co. The enumeration of the stock is necessarily incomplete: very many articles found in such establishments and always kept in full variety by Dilworth & Co., are not mentioned; only the principal staple goods are named. Of these, the stock is as large as will be found in any Eastern wholesale house, and notwithstanding the very large daily sales and shipments, the stock is well kept up by new arrivals from every source of supply. Requisition is made by this enterprising and wealthy firm upon the coffee crops of Brazil and the Islands of the East and West Indies; upon the sugar fields of Louisiana, Cuba and Porto Rico, and upon the Refineries for all the grades and qualities of pure white sugar. The present stock of sugar aggregates nearly 1,500 hhds and bbls., and of molasses including the grades from pure cero to the very choicest syrups; of Carolina and Rangoon rice, 75 tierces and bags; of teas, 219 packages Y. H., G. P. Imperial, Japan, Hyson, Colony, and Souchong; of tobacco, 350 butts and caddies, 1-3s, 10s, &c.; of fish, 620 bbls. Mackerel, Potomac and Lake Herring of recent catch and inspection. In addition to these and a hundred unmentioned articles, the firm in order to meet the growing demand for roasted coffee, has put in operation an improved Coffee Roaster, and are thus prepared to supply the trade with the best roasted coffee in the market. The character of the firm is a guarantee that the coffee prepared by them will be without adulteration and pure.

Merchants and others visiting Pittsburgh for supplies should not fail to visit this really first class establishment, where they will find the proprietors and salesmen all that they could desire.
